DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Kuno et al (Fig. 5).

Kuno et al (Fig. 5) discloses an amplifier circuit comprising an amplifying transistor (Q1), and a current path control section (Q2) which controls a size (channel width) of the amplifying transistor (Q1) and a path of a current through the amplifying transistor (Q1).

Allowable Subject Matter

Claims 2, 10, 18 and 45 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion
